

Ryan Johnson

Front-End Web Developer

I am a Front-End Web Developer working with React, HTML, CSS, Javascript, Firebase, Github, Bootstrap, and Photoshop, and always continuing to learn more! I have an eye for design and color theory, and I will not rest until the project looks perfect. I place a high importance on clean and dry code, in order to make everything simple and readable. Please take a look at my portfolio to see examples of my work.

Experience

2021 - 2022

Collabtech Group | 7645 E Ray Rd #125, Mesa, AZ 85212

Collaboration Technician

Provided email-based product support for the company's partners: Logitech and Lenovo. We diagnosed and troubleshooted their video conferencing solutions and collaboration technologies. This included cameras, touch panel accessories, microphones, computing units, and more.

2019 - 2021

BCBS of AZ | 2444 W Las Palmaritas Dr, Phoenix AZ 85021

Website Support Specialist

Performed customer account support and password resets via phone and email for Blue Cross Blue Shield of Arizona's main website, azblue.com. Forwarding site issues to developers for diagnosing.

2018 - 2019

Endurance International | 1500 N Priest Dr, Tempe AZ 85281

Web Advisor/Technical Support

Provided server-side website support and maintenance for medium to large sized businesses. This included DNS management, SSL, FTP & Wordpress troubleshooting.

2017 - 2018

Shutterfly | 7195 S Shutterfly Way, Tempe AZ 85283

Customer Care Agent

Initially assisted customers over the phone with their products and orders through the Shutterfly.com website. Was quickly promoted to Chat/Email support after a few months with the company.
